Mammoth Lakes, Calif. (August 9, 2021) — Mammoth Lakes Tourism and world-class, Los Angeles based airline, Advanced Airlines, announced today that ticket sales for winter flights direct into Mammoth Lakes are now available for pre-booking. The partnership, announced last year but postponed due to the pandemic, will see Advanced Airlines serving as Mammoth Lakes' exclusive partner providing public charter flights in and out of Mammoth Yosemite Airport (MMH), the closest airport to Mammoth Mountain.

Beginning November 24, 2021 - April 4, 2022, Advanced Air will fly 30-passenger Dornier 328 jets from Southern California destinations Burbank (BUR), Carlsbad (CLD) and Hawthorne (HHR) direct into the Mammoth Yosemite Airport. Travelers can enjoy the convenience of a private air travel experience at commercial airline cost with benefits such as private terminals and skipping TSA.

"Mammoth is the home to some of the best snow in California and a legendary recreational destination for outdoor enthusiasts," said Levi Stockton, Advanced Air Founder & President. "It is a thrill to partner with Mammoth Lakes Tourism to provide Southern California residents a safe, easy, and enjoyable way to get away for the winter."

"The Town of Mammoth Lakes is excited to partner with MLT and Advanced Air to bring scheduled charter air service to the Mammoth Yosemite Airport," said Mammoth Lakes Town Manager, Dan Holler. "Advanced Air has been great to work with, they know Mammoth Lakes and have a great Southern California presence. This partnership establishes quality and convenient air service for our residents and visitors connecting with Southern California."
